Women's economic empowerment is a prerequisite for sustainable development, pro-poor growth and  
the achievement of all the MDGs. At the same time it is about rights and equitable societies. There is scope  
for increasing donor investments in women's economic empowerment. Achieving women's economic  
empowerment is not a "quick fix".

Classification of Terrestrial Ecosystems Classifying the geography of plant communities is no easy task, as  
their distribution is a complex phenomenon influenced by a variety of factors. However, plant communities  
are among the most visible of natural phenomena, so they can be easily observed and categorized on the  
basis of form and structure.
