

fortress malta an island pdf

Malta has been inhabited from around 5900 BC, since the arrival of settlers from the island of Sicily. A significant prehistoric Neolithic culture marked by Megalithic structures, which date back to c. 3600 BC, existed on the islands, as evidenced by the temples of Mnajdra, Ggantija and others. The Phoenicians colonised Malta between 800–700 BC, bringing their Semitic language and culture.

Malta - Wikipedia

Malta has a long history and was first inhabited in around 5900 BC. The first inhabitants were farmers, and their agricultural methods degraded the soil until the islands became uninhabitable. The islands were repopulated in around 3850 BC by a civilization which at its peak built the Megalithic Temples, which today are among the oldest surviving buildings in the world.
