Communication Networks: Alberto Leon-Garcia, Indra Widjaja

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi. Network computer devices that originate, route and terminate the ...

Chapter 7. Magnetic Recording Fundamentals

Consider any complex, potentially volatile issue – Arab-Israeli relations; the problems between the Serbs, Croats, and Bosnians; the U.S. deficit, healthcare costs, or labor/management relations. At the root of such issues, you are likely to find communication failures and cultural misunderstandings that prevent the parties involved from framing the problem in a common way and [!]
