Each tool is identified, along with the purpose for the assessment, and the appropriate grade level for use of the assessment. This chart is meant as a guide for teacherâ€™s choice of assessment tools.

Examples of Curriculum-Based Measurement Probes

In mathematics we use ordinary language and the special language of mathematics. We need to teach students to use both these languages. We can work on problems within mathematics and we can work on problems that use mathematics as a tool, like problems in science and geography. Mathematics can describe and explain but it can also predict
