

mother and child portraits pdf

A mother is the female parent of a child. Mothers are women who inhabit or perform the role of bearing some relation to their children, who may or may not be their biological offspring. Thus, dependent on the context, women can be considered mothers by virtue of having given birth, by raising their child(ren), supplying their ovum for fertilisation, or some combination thereof.

The Netherlands and Brussels 1881-1886. Van Gogh was fascinated with making portraits early in his artistic career. He wrote to his brother, Theo while studying in The Hague, "I want to do a drawing that not quite everybody will understand, the figure simplified to the essentials, with a deliberate disregard of those details that do not belong to the actual character and are merely accidental."
