Narcissistic personality disorder (NPD) is a personality disorder with a long-term pattern of abnormal behavior characterized by exaggerated feelings of self-importance, excessive need for admiration, and a lack of empathy. Those affected often spend much time thinking about achieving power or success, or on their appearance. They often take advantage of the people around them.

Narcissistic personality disorder - Wikipedia

Narcissistic personality disorder (NPD) is a personality disorder in which the person is obsessed with (spends a lot of time thinking about) themselves. They think they're better and more important than anyone else, and want to be treated as special. It is more common in men than women.. It is named after Narcissus, a figure in Greek mythology who fell in love with his own reflection.
