Architectural design is the method of organizing materials and forms in a specific way to satisfy a defined purpose. Two key aspects of human involvement are contained in the design process. The first aspect relates to the architect, the second aspect relates to the user or participant of the solution.

integrated ornamentation based on natural themes, developed the maxim "Form Follows Function" which Wright later revised to "Form and Function Are One." Sullivan also believed in an American architecture based on American themes not on tradition or European styles -- an idea that Wright was later to develop.
