This disambiguation page lists articles associated with the title Phthisis. If an internal link led you here, you may wish to change the link to point directly to the intended article.

Phthisis - Wikipedia

Tuberculosis (TB) is an infectious disease usually caused by *Mycobacterium tuberculosis* (MTB) bacteria. Tuberculosis generally affects the lungs, but can also affect other parts of the body. Most infections do not have symptoms, in which case it is known as latent tuberculosis. About 10% of latent infections progress to active disease which, if left untreated, kills about half of those infected.
